Change Classification

Major

Change Type

Discontinuation

Affected Products

Alvium 1500 C-050, 1800 U-050, FP3-050, GM2-050, and all modular subvariants

Reason for Discontinuation

Effective immediately, we are discontinuing all camera models equipped with the ON Semiconductor Python 480 image sensor due to supply chain constraints and internal quality assurance requirements.

To ensure that we continue to deliver products that meet our high standards of reliability and performance, we have determined that it is necessary to halt production of these specific models.

Impact / Possible Successor

Immediate Effect:

Production of all affected models has ceased as of today.

Open Orders:

All pending orders for camera models equipped with the ON Semiconductor Python 480 sensor will be automatically canceled. Affected customers will receive a separate confirmation email regarding the cancellation and a full refund for any payments already processed.

For further information or options such as maintenance contracts or migration to future-proof platforms, please contact your dedicated sales representative.
