GigE camera with CMOSIS/ams CMV2000 CMOS sensor

Manta G-223 is a machine vision camera that incorporates the high quality Type 2/3 (12.7 mm diagonal) CMOSIS/ams CMV2000 sensor. At full resolution, this camera runs 53.7 frames per second. With a smaller region of interest, higher frame rates are possible. Manta G-223 is offered in both monochrome and color models.

Manta is one of Allied Vision's versatile GigE Vision cameras with a wide range of features. Particular highlights are the three look-up tables, sophisticated color correction capabilities, a robust metal housing, and many modular options. By default monochrome models ship with B 270 ASG protection glass and color models ship with a Type Hoya C-5000 IR cut filter. A 2/3 inch lens may cause vignetting (1 inch lens recommended).

Benefits and features:

- Monochrome (G-223B) and color (G-223C) models
- GigE Vision interface with Power over Ethernet option
- Screw mount RJ45 Ethernet connector for secure operation in industrial environments
- Supports cable lengths up to 100 meters (CAT-6 recommended)
- Trigger over Ethernet Action Commands allow for a single cable solution to reduce system costs
- Easy camera mounting via standard M3 threads on top and bottom of housing or optional tripod adapter
- Comprehensive I/O functionality for simplified system integration
- Popular C-Mount lens mount
- Easy software integration with Allied Vision's Vimba Suite and compatibility to the most popular third party image-processing libraries.
- Defect pixel masking feature with the Defect Mask Loader tool that allows you to manage a user defined defective pixel list to match your application and optimize the life cycle of the camera.
Options:

- Various housing options: Select between standard housing, angled-head, or board level versions
- Various lens mounts: Select between C-Mount, CS-Mount, or M12-Mount (adapter)
- Various optical filters: Select between B 270 ASG protection glass and filter types: Jenofilt 217 IR cut filter, Hoya C-5000 IR cut filter, RG715 IR pass filter, or RG830 IR pass filter.
- Available with Power over Ethernet compliant interface
- Available with white medical design

See the Modular Concept for lens mount, housing variants, optical filters, case design, and other modular options. See the Customization and OEM Solutions webpage for additional options.

Imaging performance

Imaging performance data is based on the evaluation methods in the EMVA 1288 Release 3.1 standard for characterization of image sensors and cameras. Measurements are typical values for monochrome models measured at full resolution without optical filter. Contact Sales or AE for more information.

- Quantum efficiency at 529 nm: 72 %
- Temporal dark noise: 13.3 e⁻
- Saturation capacity: 9400 e⁻
- Dynamic range: 56.7 dB
- Absolute sensitivity threshold: 13.8 e⁻

### Operating conditions/dimensions

- **Operating temperature**: +5 °C to +45 °C ambient (without condensation)
- **Power requirements (DC)**: 8 to 30 VDC AUX or IEEE 802.3af PoE
- **Power consumption**: External power: 2.7 W at 12 VDC | Power over Ethernet: 3.1 W
- **Mass**: 190 g; 200 g (PoE)
- **Body dimensions (L × W × H in mm)**: 86.4 × 44 × 29 (including connectors)
- **Regulations**: CE: 2014/30/EU (EMC), 2011/65/EU, including amendment 2015/863/EU (RoHS); FCC Class B; CAN ICES-3 (B)

### Quantum efficiency

![Quantum efficiency graph](image-url)

- Blue QE
- Green QE
- Red QE
- Monochrome QE

**Note**: CMOS/Gfirst CMV2000 absolute QE.
Features

Image optimization features:

- Auto gain (manual gain control: 0 to 26 dB; 1 dB increments)
- Auto exposure (18 µs to 126 s; 1 µs increments)
- Auto white balance (G-223C only)
- Black level (offset)
- Color correction, hue, saturation (G-223C only)
- Decimation
- Defect pixel masking (user defined with Defect Mask Loader tool)
- Gamma correction
- Three look-up tables
- Piecewise Linear HDR mode
- Region of interest, separate region for auto features
- Reverse X/Y

Camera control features:

- Auto-iris (video type)
- Event channel
- Image chunk data
- IEEE 1588 Precision Time Protocol
- Storable user sets
- StreamBytesPerSecond (bandwidth control)
- Stream hold
- Sync out modes: Trigger ready, input, exposing, readout, imaging, strobe, GPO
- Temperature monitoring (main board)
- Trigger over Ethernet Action Commands
Applications

Manta G-223 is ideal for a wide range of applications including:

- Full HD solutions
- Machine vision
- Industrial inspection
- Security and surveillance
- Industrial image processing
- Intelligent traffic solutions (ITS)
