GigE camera with Sony ICX687 CCD sensor

Manta G-282 is a machine vision camera that incorporates the high quality Type 1/1.8 (8.918 mm diagonal) Sony ICX687 CCD sensor with EXview HAD II technology. This sensor has the same resolution as the ICX674 at a more cost-effective price level. At full resolution, this camera runs 30.4 frames per second. With a smaller region of interest, higher frame rates are possible. The Manta is one of Allied Vision's versatile GigE Vision cameras with a wide range of features. Particular highlights are the three look-up tables, sophisticated color correction capabilities, a robust metal housing, and many modular options. By default monochrome models ship with B 270 ASG protection glass and color models ship with a Type Hoya C-5000 IR cut filter.

Benefits and features

- Monochrome (G-282B) and color (G-282C) models
- GigE Vision interface with Power over Ethernet option
- Screw mount RJ45 Ethernet connector for secure operation in industrial environments
- Supports cable lengths up to 100 meters (CAT-6 recommended)
- Comprehensive I/O functionality for simplified system integration
