

Pike F-100

- Versatile IEEE 1394b camera
- Advanced feature set
- Many variants
- High frame rates

Description

Premium 1 Megapixel FireWire camera with very high frame rates

The Pike F-100B/F-100C is equipped with an ON Semiconductor KAI-1020 CCD sensor. At full resolution, it runs at 60 frames per second (Mono8/Raw8). Higher frame rates can be reached by using a smaller area of interest (AOI), binning (b/w), or sub-sampling. The camera includes extraordinary image pre-processing functions like the High SNR mode (up to 24 dB better signal-to-noise ratio).

Options:

- IEEE 1394b connectors: 2 x copper (daisy chain) or 1 x GOF, 1 x copper, Hirose power: out
- Various IR cut/pass filters, various lens mounts
- Angled head, white medical housing

Applications

The Pike F-100B/F-100C is a 1 Megapixel camera for sophisticated requirements. OEM customers profit from its modular design, which provides many opportunities for customization. For Healthcare and Life science applications, a white housing (medical design) is available (this applies to all cameras by Allied Vision Technologies).

Pike cameras are especially suited for:

- Applications which require high frame rates and outstanding image quality
- OEM applications (modular concept)
- 3D recordings
- Science and research
- Healthcare and sports
- Multimedia and entertainment
- Intelligent traffic solutions (ITS)
- Long cable lengths, 400 meters and more (fiber version)
