## Description

4.2 Megapixel camera for Extreme environments - fast frame rates

Prosilica GT2050/GT2050C is a 4.2 Megapixel camera with a GigE Vision compliant Gigabit Ethernet interface. This camera incorporates the high quality CMOSIS CMV4000 sensor. It is a rugged camera designed to operate in extreme environments and fluctuating lighting conditions. This camera offers Precise iris lens control allowing users to fix the aperture size to optimize depth of field, exposure and gain without the need for additional control elements. By default monochrome models ship with no protection glass and color models ship with an IRC30 IR cut filter.

Options:

- Various optical filter and lens mount options

See the Modular Concept for lens mount and optical filter options.
