Description

High Definition Resolution CCD camera with GigE Vision interface

Prosilica GE1910 is a CCD camera with a Gigabit Ethernet interface (GigE Vision®). This camera incorporates the ON Semiconductor KAI-02150 CCD sensor for excellent image quality in HD resolution (1080p). This camera runs 32 frames per second at full resolution. With a smaller region of interest, higher frame rates are possible. By default monochrome models ship with no optical filter and color models ship with an IRC30 IR cut filter.
